

BOSTON HEALTHCARE ASSOCIATES, INC.

Job Title: Manager, Market Access, Reimbursement & Policy

Job location: Boston, MA

Job Description

Boston Healthcare is a global health care consulting company with offices in Boston, Berlin, and Shanghai. We work with biopharmaceutical, medical device, and diagnostic companies to develop new and creative approaches to business and product planning. Since 1993, we have been providing clients with the strategy and analysis they need to be better able to respond to the dynamic environment of the health care industry.

Boston Healthcare is currently seeking a Manager of Market Access with Reimbursement and Policy experience for our Boston, Massachusetts office. This full-time, position requires an individual with a proven record of relevant prior work experience in market access and excellence and a demonstrated interest and knowledge in the health care industry. A public health and/or health policy background and a minimum of four years prior healthcare consulting market access experience is required. This position requires individuals with reimbursement and health care policy experience.

Position Overview:

- Conduct research and analysis regarding policy and reimbursement implications for new health care technologies including biopharmaceuticals, medical devices, and diagnostics
- Analyze current medical practices, competitive technologies, reimbursement policies, and other market adoption factors
- Manage projects and project teams
- Develop project materials within given timelines and produce written reports and client ready presentations

General Requirements:

- 4-6 years of consulting experience or similar experience in biopharmaceutical and med tech field in market access project management
- Experience with US public and private payer coverage and reimbursement policy, including various fee schedules (DMEPOS, OPPS, etc); experience in medical devices and diagnostics a plus
- Understanding and familiarity with CMS policy and implications for clients. Including MACRA, ACOs, bundled payment, etc.
- Comprehensive understanding of different US coding systems, CPT, HCPCS, ICD-10
- Prior experience leading project teams and market access content training
- Strong presentation, PowerPoint, and Excel skills are required
