

Job Title: Senior Associate / Associate, Reimbursement and Health Policy

Job Location: Boston, MA

Job Description

Boston Healthcare is a global health care consulting company with offices in Boston, Berlin, and Shanghai. We work with biopharmaceutical, medical device, and diagnostic companies to develop new and creative approaches to business and product planning. Since 1993, we have been providing clients with the strategy and analysis they need to be better able to respond to the dynamic environment of the health care industry.

Boston Healthcare is currently seeking a **Senior Associate or Associate, Reimbursement and Health Policy** for our Boston, Massachusetts office. This full-time position requires an individual with a proven record of academic excellence and a demonstrated interest and knowledge in the health care industry and a minimum of a B.S or B.A. in biotechnology management, health policy or economics and **1-2 years of relevant experience.**

Job Description

- Conduct research and analysis regarding policy and reimbursement implications for new healthcare technologies including biopharmaceuticals, medical devices, and diagnostics
- Analyze current medical practices, competitive technologies, reimbursement policies, and other market adoption factors
- Conduct primary and secondary research and data collection
- Develop project materials within given timelines and produce written reports and client ready presentations
- Support interactions with policymakers through preparation of written and verbal materials

General Requirements

- A minimum of 1-2 years of direct consulting experience in reimbursement and policy in the biopharmaceutical, medical devices and diagnostics fields
- Experience with US public and private payer coding systems, coverage and reimbursement policy, including various fee schedules (DMEPOS, OPSS, etc.); experience in medical devices and diagnostics a plus
- Familiarity with CMS policy and implications for clients. Including MACRA, ACOs, bundled payment, etc.
- Experience with US coding systems, CPT, HCPCS, ICD-10
- Excellent PowerPoint and Excel skills are required
- A minimum of a B.S or B.A. in biotechnology management, or economics
- Excellent writing and oral presentation skills are required
